

YONG JOSEPH BAKOS

8 East First Avenue #115

Denver, CO 80203

(303)653-3017

ybakos@humanoriented.com

SUMMARY

Experienced, happy software craftsman seeks a well-knit team to help deliver great software.

SOFTWARE DEVELOPMENT EXPERIENCE

Human-Oriented Systems

Denver, CO

Founder, Senior Developer

2001–Present

Produced a large number of custom applications for clients worldwide, including ShipSchedule w/ Rails; TrailerTrack w/ .Net, wireless scanning & gps; PalletTag w/ Java5, JSP, Servlets; Tasklist w/ XML and REST Web services; Showslist, w/ Qcodo PHP framework; CalorieChallenge w/ AJAX, Flash & ActionScript; and numerous standards-compliant, database-backed Web sites.

AT&T Broadband / Comcast

Denver, CO

Senior Developer (contract)

2000–2001

Constructed the entire AT&T Broadband customer service Web portal with national localization features per region; constructed numerous call center applications including *Murano*, an end-to-end content management and syndication system. All built on the J2EE/Servlet/JSP platform on Resin application server & SQL Server with full load balancing and database clustering serving millions of requests/month.

Parsons Brinckerhoff

Denver, CO

Intranet Application Developer

1999–2000

Constructed a multi-lingual worldwide intranet on the Microsoft ASP platform (ASP, ADO, SQL, HTML, CSS, JavaScript) distributed globally across replication servers and SQL Server clusters.

Hubbard One / Thomson Elite

Chicago, IL

Senior Developer, SysAdmin

1997–1999

Delivered the early technical foundation for a startup now regarded as “the Mercedes Benz of Web solution providers for law firms.” Created and maintained database-backed Web sites with IIS, ASP, HTML, JavaScript, CSS, Flash, Director, SQL Server, Verisign payment gateway, and Real Media Server.

EDUCATION

Northwestern University

Evanston, IL

BS Computer Science 1999, BA Art Theory & Practice 1998
